Dear Councillor,

As a resident of Plas Madoc, I am writing to express my support for plans for a Sainsbury's to be built on the Wynnstay Estate site.

Not only would a new supermarket provide local people with increased choice in a comfortable shopping environment but would also help regenerate and inject life into this under-developed area of South Wrexham.

It is my understanding that only by securing a food store consent for a limited section of the site that sufficient finance can be generated to enable construction of a roundabout, estate road and business incubator units upon the site. The job creation potential, should plans go ahead, is significant with more than 4,000 job opportunities being made available. The knock-on potential for inward investment should also be taken into account.

The benefits of granting consent therefore, to my mind, speak for themselves and I would urge you to give these proposals the consideration they rightly deserve.

Yours sincerely,
