

### Help sought for research project

Glyndwr University is seeking to recruit some “testers” for a research project it is undertaking. The University is experimenting with new technologies that are designed to help older people and people with a disability remain more independent within their own home. The project focuses specifically on making kitchen appliances more effective and useful. Glyndwr University is looking for volunteers who will spend a couple of hours “test-driving” some of these appliances and giving feedback on what they find. Lunch and travel expenses are provided. If you are interested in taking part please contact Andrew Harradine on 01978 813910. The testing takes place until the end of October.

Plas Madoc Communities First will be holding an official launch of Gwynant Park on Thursday between 12.30 – 2.30pm.

There will be lots of activities for children, young people and families including ‘Shooting Stars’ circus skills, the workshop consists of a circus instructor and circus equipment (which can be varied according to age groups). Examples include juggling balls, rings, clubs, scarves, spinning plates, ball-cups, spinning balls, diabolos, flower sticks, hat manipulation and larger equipment such as rola-bola, stilts, fun wheels, pedal racers, unicycles, mini-bikes, tightrope and lots more.

Refreshments will be provided courtesy of Plas Madoc Communities First and local volunteers, come along for a fun day.

For more information please contact Claire Griffiths on 813918

### Community Safety Group

The next meeting is tomorrow evening at 6:30pm in The Opportunity. The agenda includes; the monthly update from NW Police, potential funding available from WAG’s Community Cohesion Fund, Halloween & Bonfire Night among other issues. All welcome.
